

Sue Allport
Serving in Mozambique

Wesleyan World Missions

Sue Allport

God called me to Mozambique following an AWSOM trip in 2003 giving me a wonderful promise in Jer 29:11.

My passion as a Registered Nurse is to help equip the Mozambican people with knowledge of how to have healthier lives by preventing sickness and disease.

This was my mission in 2006-7 whilst working at the Xai- Xai Wesleyan Bible College.

The basic Health and Hygiene classes covered:

- Life changing habits, safe water and washing hands
- Fluid intake, balanced diet, regular hygiene
- Understanding how our body works
- Importance of immunization
- Malaria prevention-mosquito nets
- Gardens to feed the sick, aged and orphans

I also gave practical support to families with sick members. While there are many positive changes and improving health in areas, the work has just begun.

I am committed to returning to the National Church Team as their Health Education Support Worker in 2009 for a further term. My work will continue in the Xai-Xai area and expand to projects in other Provinces.
